

Hollow Days

Twin Shadow

Hanging dark in the Walmart lot
Waiting for you
The black top wave
The interstate that drags you
My obsessions
Teach me lessons
I'm always waiting for you
The drugs we take
Play with our fate
I love you

Your mother hates you
You father bates you
I'm surprised you take it
Heres my message to mom
Here's my pleading to god
We might not make it home

These
Hollow days
These sorrow days
I miss you
These sorrow days
These hollow days
I miss you

Leaving home
The cold north calls
Would you go with me
I've seen too much around here
I know how's it's going to be

Kiss the crescent moon
You're my best friend
Soon I will be lying in snow
You don't want to go
Roads we take
The plans we make
I leave you

Your mother hates you
You father bates you
I'm surprised you take it
Heres my message to mom
Here's my pleading to god
We might not make it home

These
Hollow days
These sorrow days
I miss you
These sorrow days
These hollow days
I miss you
