

Lonestar

Twin Shadow

I think about it
All the battles I won
I felt pathetic
Cause it burned out my sun
I counted fingers
And it came down to one
Cause making friends it figures
Was like picking out a gun

Hey Hey
You feel like a Lonestar
Well let me take the weight
From your tired eyes
They'll make you feel like a monster
Forget it -- it's good to be
Alone. Star

Well, it was often on my taste buds hey!
A taste of something I could never be
When I was young it was the reason I would run
I would take it on the cheek
Now a bite it off they tongue

Hey Hey
You feel like a Lonestar
Well let me take the weight
From your tired eyes
They'll make you feel like a monster
Forget it -- it's good to be
Alone. Star

Don't kick me off of my wave boy
Start with me you'll likely catch the fade boy
You think that I could never be saved, boy
You musta forgot
That I'm a tricky sick one

I get it I got
I found it my self
I got rid of the haters
It was bad for my health
I counted fingers it came down to one
Cause makin' friends in LA was like picking out a gun

Hey Hey
You feel like a Lonestar
Well let me take the weight
From your tired eyes
They'll make you feel like a monster
Forget it -- it's good to be
Alone. Star

Don't kick me off of my wave boy
Start with me you'll likely catch the fade boy
You think that I could never be saved, boy
You musta forgot
That I'm a tricky sticky one

Hey Hey
You feel like a Lonestar
Well let me take the weight
From your tired eyes
They'll make you feel like a monster
Forget it -- it's good to be
Alone. Star

Don't kick me off of my wave boy
Start with me you'll likely catch the fade boy
You think that I could never be saved, boy
You musta forgot
