

## Back to Reality

Twinspirits

The sun is shining on my eyes  
The daylight has returned  
To live in dreams has been so fine,  
but I had to come back  
Everything is different here  
from where we have been  
I'm so sad because I know  
that we won't meet again

I miss you my friend, ooh, and I miss your land  
where I've been really free  
I had to go back to this crazy world  
I'm gonna cry the same old tears

I used to think that all was right,  
but I was so wrong  
Now I've learned that there's a place  
where all is really fair  
War exploding everywhere  
I feel so insecure  
I will have to learn again  
to live in this sad way

I miss you my friend, ooh, and I miss your land  
where I've been really free  
I'm going back to this crazy world  
I'm going to bear the same old lies

I'm back to reality  
And I miss you, yeah, I miss you so much  
It's not where I want to live  
And I miss you, yeah, I miss you so much  
It's all over and now I'm back to reality

I miss you my friend, ooh, and I miss your land  
where I've been really free  
I had to go back to this crazy world  
I'm gonna cry the same old tears

I'm back to reality  
And I miss you, yeah, I miss you so much  
It's not where I want to live  
And I miss you, yeah, I miss you so much  
It's all over and now I'm back to reality  
I'm back...I'm back...I'm back  
Yeah!
