

The Music That Will Heal The World

Twinspirits

(It is forever)

The mystery and the miracle of life
The magic and the wonder of your eyes
The nature now is listening to our hearts
They're playing for us the music that will heal the world

The seeds of creativity can be already found
in the innocence of a child's heart
Music is the real chance to reach other hearts,
to express yourself to anyone!

A tender embrace coming from your arms
Your minds have become calm and so relaxed
This music now is entering your hearts
Remember, it's the music that will heal the world!

What an opportunity to make them understand
It's time to give up with all these wars
Music is the magic way to reach other hearts,
to express yourself to anyone!

You can say more than any spoken word
You can give more with just a single note
You don't believe, just listen to this sound
You'll find a brand-new world
There's no better place to stay

It is forever
This music will survive to us
It is eternal,
'cause it's the music that will heal the world!

Music is the magic way to reach other hearts,
to send out the message very far!
The power of our magic notes will fly all around
We won't stop playing 'till the end of time

You can say more than any spoken word
You can say more with just a single note
You don't believe, just listen to this sound
You'll find a brand-new world
There's no better place to stay

It is forever
This music will survive to us
It is eternal,
'cause it's the music that will heal the world!

(2x)

Yeah...it's the music that will heal the world (6x)
