Girl I see you in them apple bottom jeans, chinchilla on yo back I wanna know yo name,
Girl don't twist it I can throw yo brain, put you in tha chameleon 04 range,
Still sexy when you smoke that flame, jerkin' like a chicken when you throw that thang,
She got me hotter than an oven tha way that she talk, twitchin' and freaky so I'm lovin' tha way that she walk,
You lookin' good girl you oughta be in pictures... Listen to me I see yo career goin' sky high,
Takin' you home to the crib in the Chi and everytime I see your thighs I cry when i drive by,
Watch it you should bring a thrill, got tha fellas on some Johnny Gills steady screamin "My, my, my, my,"
Walk on tha carpet wit tha diamonds that flick in tha dark, kickin' it on tha couch and 106 & Park,
I can see yo beauty on a big screen... I can see me freakin' you wit' whip cream...
I can see you on stage at the awards, wit' a dress better then Jennifer's and doin' big things,
Kick it wit' me I can mold yo life, you lookin' good girl show you right,
