

Time Zone

Twista

Girl, you know I spent some time on the road
I just pulled up for the night, what you want?
I'll come through and get you right, I know what you want
Love your body for tonight through tomorrow
Girl, I'm in your time zone, let's vibe
I just pulled up for the night
I'll come through and get you right
Love your body for tonight through tomorrow
Girl, I'm in your time zone, let's vibe

I just had to play my part, playin' my position
Was prayin', hopin', and wishin' to get a taste of your lips and them Hershe
y kisses
I was trippin', I been real distant (I know)
You became independent and I was kinda intimidated
But still wit' it 'cause you're real wit' it (Facts!)
In the game and you killin' it
Still in love so jaded like it's Will in it
But I stay so down 'cause you trill wit' it
And I'm feelin' it sooo, what we gone do?
Thinkin' 'bout progressin' and stressin' is old news
Every time you need me, yo nigga with roll through
'Cause you a hot chick and I'm kind of a cold dude (right)
Lemme hold you
All these diamond chains don't dance like you do
I can put my bands and hands upon your waistline
Tired of talkin' over FaceTime
I wanna know

When you commin' through?
I'm tryna get you in the mood, yeah
Sorry if I'm rude, I get jealous
You don't need no other dudes, yeah
Pick you up and cruise
Tryna smoke a blut or two, take you to my place
I know what to do

Girl you know I spend some time on the road

Hopin' you be feelin' what I'm transmittin'
Tryna see them legs hit the damn ceiling again
Every time you come around, I get that feelin' again
Tellin' me things in my ear that be reelin' me in like a fisherman
I been on the move like a running back (swift)
In your time zone again and I'm coming back
Man, all these girls is fast like they cuttin' back
But you my heart and I got you, so I'm done with that
Keisha and Lisa and Sadie
You got your space and your place as my lady

You had your guard up like Tracy McGrady
But you crossed over and now you can't shake me
You got the juice, you my main squeeze
Still I'm after these bands like I'm KC
But I'm in your region for reasons I don't care to speak of
I'm hopin' that we can just meet up
Where you at?

When you commin' through?
I'm tryna get you in the mood, yeah
Sorry if I'm rude, I get jealous
You don't need no other dudes, yeah
Pick you up and cruise
