Rest in peace to the late great Whitney Houston We just lost one of heaven's angels, it's a thang Twista ya,
Still so young, I can't see… here we go

What? Somebody told me Whitney Houston died Can't believe to tell you how quickly tears went through my eye

She was getting better now it's really just flew aside I still ain't got over Don Cornelius' suicide So where do I start it? Dearly departed One of heaven's angels for sure who was really an artist Loving the way that my mama was saying she can sing in a way th at's magical

Ain't nobody like you, nobody before you and nobody after you Can never come near you

Not hearing the ... but you with us as spirit

So sad to hear it. I'm choking up while I come up with

So sad to hear it, I'm choking up while I come up with these ly rics

And though she blessed the earth and it's time to let heaven prosper

I still wish somebody was there to protect her Who? Kevin Costner, Who? Clive Davis, Who? Bobby Brown Her mama and her daughter, Whitney is ... now Such a short time, don't want it to be this way But if she was here, she would probably say

If I should stay,
I would only be, in your way
So I'll go but I know
I'll think of you
Every step of the way x2
