Twista

New whip got me goin' in the fast lane
Bad bitches and riches, I'm gettin' mad change
It's a lyrical ritual, shit's a miracle
That means what I've been through is a present
That's from the past, mane, gifts
Need a little pick me up, I don't mean Lyft
Everything tailored, real class no swift
Never had ish like Tiff'
Birthdays never had a wish
Comfortable like a Huxtable and I'm off that Cliff
Bitch, I'm too fly, back on my shit
See, I can't complain, I got plaques and things
All for the rap and fame, my life you just can't get
Feel like I should be proud of my accomplishments
Took a lot of grind just to accomplish it
Tearing up the game multiple rhymin' shit
Made everybody realize I'm the shit (a legend)

I need my privacy, I need somebody to show me some honesty
I'm thinkin' honestly, livin' my legacy, fuck those who copy me
I'm thinkin' honestly, what would I change if I had a few wishes?
Nothin'!
Don't need no genie to come out the bottle and do nothin' different

I don't need no wish, yeah
Love my life it's lit, yeah
I'm so fuckin' grateful
I don't need for shit
I don't need no wish, wish, wish, wish, wish, yeah
I don't need no wish for my wish list, yeah

Said one day when I grow, Imma push a fly whip
Get a bad bitch, then buy a couple nice cribs
Travel all around the world, fly jet private
Everything I said I would do, I did
Congratulations, I'm me and I don't need no ID
She want the D like pipe dreams
So we connect like Siamese
Why you actin' cold when I'm yours for the summer?
I swear I'm commin' outta Michelle like Obama
A lot of shit I did, but I still got the karma
If you ain't on my team, then you part of the problem

I'm thinkin' honestly, what would I change if I had a few wishes?
Don't need no genie to come out the bottle and do nothin' different

I don't need no wish, yeah
Love my life it's lit, yeah
I'm so fuckin' grateful
I don't need for shit
I don't need no wish, wish, wish, wish, wish, wish, yeah
I don't need no wish for my wish list, yeah

If I had a wish, I wouldn't change a thing
Said if I had a wish, I'd wish it straight away
I don't need no wishes, love the life I'm livin'

The stars, they can fall out the sky 'cause

I don't need no wish, yeah

Love my life it's lit, yeah

I'm so fuckin' grateful

I don't need for shit

I don't need no wish, wish, wish, wish, wish, yeah

I don't need no wish for my wish list, yeah
