

Different

Twisted Insane

Lie, biddy-bye bye, I ride by them, don't speak
My my my my, kept cool, come from them cheek
Sure 40 drop, I don't stop, watch them leak
This shit hit different, on

Face it, I'm evasive
Here he come in the Chuck Ts with the all green fat laces
Traces of death when I'm on your neck, ain't no chases
I don't wanna have to go and look around, send me location (motherfucker)
Pull up even if a nigga's on probation
"Four found dead, five in the head", all in quotations
Face him, 25 years, ain't no more tears, racin'
Now I sit around, bodies in the ground, lives I have taken
Fuck around I put the hollow all up in your sixpack
Now you wanna run and everywhere you pull up, here he comin' with the shitba
g
I get that, anyone you pick I promise it gon' be a mismatch
Fuck around with the body in the ground, turn around, call dispatch
I meant that, gangrene, used to be on the same team
Line 'em up, nigga, AB, no if-and-or-maybes
So brazy, you don't ever come through so you don't phase me
Put 'em in a headlock, leave 'em with a dreadlock like Jay-Z
People tell me I'm the devil so I'm 'bout to give it to 'em
Bring 'em all to hell and [?] heat, I got 'em burnin' all up in your living
room
Elevatin', body shakin', won't you ever wake up, finna bring you in the doom
Take a step, I'm 'bout to break a nigga, barely take a sip to get up in the
mood
Real psycho, oh it's sick, run away before the Covid spit
Know this shit, I will kick up dust and pull up bustin' and I blow this bitc
h
Hold this dick, walk around up in the hot kitchen, where the beef at
Nigga look around up industry's at, where the weed at, blood, roll this bitc
h

Light up, nitrous
(Lift this stick)
Hard enough for me to maintain, I might just
(Split this bitch)
Too amused but you don't do no tight shit
(Quit this shit)
I don't know where you wanna go ignite this
(Quick to get uh)
We be up all-nighters
(Skitzo shit)
Everybody on the frontline, all riders
(Hit yo whip)
Burn 'em all up with the hot spit, no lighters
(Ninjutsu flips)
Kerosene, nigga, we the igniters
(Nigga this shit hit different)

Different, high off this weed
Time after time they gon' die in the street
(This shit hit different, on me)
All of them die every time I'm in the seat
Roll up enemies then get choked with the meat

(This shit hit different, on me)
(Nigga, this shit hit different)
Lie, biddy-bye bye, I ride by them, don't speak
My my my my, kept cool, come from them cheek
(This shit hit different, on me)
Sure 40 drop, I don't stop, watch them leak
(This shit hit different, on me)
(Nigga, this shit hit)

Mm, out of mind when I write this shit
They can go ahead and look around the world, there are no other one like this shit
Write this sick, find out where I'm finna take you so light this spliff
Nigga, sit around and think about it when you find out what a ride this is
Mm, gotta be the goat, not me, then who? Nigga, not you
I will chew your little-bitty rhyme book up with stew, it's so true
You never know what the fuck I might do
But I promise I will never run around and be on weak shit like you
Might shoot at your whole gang, burn this shit up with the propane
Hit you running at the mall, hit 'em and I learn the blood is shed for more bangs
I throw thangs, they ain't never gotta ask bitch, I'm so Brain
Everybody's on the path, mine's too trash, I feel slow pain
I'm a shadow on the dark road with no name
Better watch out when I'm comin', they can die or eat shit for dinner
In the street where the werewolves and the vampires meet, I be in deep
Never get it with the big heat, I'm a natural born killa
Turn to martyr, I was different, everybody wishin' that they wouldn't wait
But here he come again and lookin' like I hit another fuckin' Red Bull
Someone go and tell 'em, ain't nobody trippin', who gon' be the victim when it get to rippin'
Through chest, gotta maintain, tell the main Brain keep his head cool
In a red pool, they can try but I never die like I'm Deadpool
Reachin' out for your lifeline in my lifetime, I'm darkness
Fuck 'em all till death, I put half the world in deep shit
Now everybody wanna sneak diss so it's no love from the heartless
