

I walk through the...

(Dark!) murdering, black mask and gloves

Police wanna come around still harrassing us (triv)

Everybody in the town aiming back with slugs (triv)

All I ever wanted to do was be like Mike

Anybody wanna try me, I'ma bring the demon out, it'll be Fright Night

Sayonara, you won't see tomorrow, I be eatin' rappers like it's deep fried rice

Chop sueys, aimin' hot loogies at you, ain't no way to fix this mind, right?

Try'na live a normal life but I'm cuckoo

Try to keep up with the rap tunes in the back room doin' voodoo

You ain't finna make it home, ain't no catchin' Netflix and Hulu

We gon' play a game of Russian Roulette, shoot one, I shoot two

Go 'head! (- Nah, I'm good.) - Psh, I go first then

They don't give a fuck about me, won't nobody come and get me when the hears e spin

I done lived it, kinda weird that everybody hit me back when I done put the work in

They all told me that's no way to get down, I'm hellbound for certain

Ain't no way for you to get out when you in too deep

Put it to my dome, pull the trigger two times, look, I pass the heat

Don't be lookin' at me funny, I did two times, real shit, but he?

Doesn't wanna do it, fuck that, I did those, so nigga (nigga)... please

(Got me fucked up) really it's just that simple, you'll be boood

Put it up to your temple, then you poop

You then gon' be the winner, or the... fool

The ginsu, the ginsu

The ginsu, the ginsu

The ginsu, the ginsu

The ginsu, the ginsu

Them out of

Luck! Tear off them face, them will

Beg when them covered in blood! Now them lay

Stuck, bombaclaas, get on them knees and then

Plead with me 'fore them get caught! The door remains

Shut! Open right up when them

Knock with this brain in the mail! all want to

Judge me while I am alive but won't be there to

Ride through the highway to hell! I walk in the...

(Dark!) type of places no one does

Murder anybody right now when they know it's us

If you gotta pull it right now, who will go with us?

Everybody on the dark side will come with me

Play the game of Russian Roulette, now who wanna hold a gun with me?

Nothin' they can do to a nigga who thought it was fun to bleed

Sent to hell on the one-way but the devil said he done with me

Don't nobody wanna say hi to the monster

Millimeter blow their brains out, niggas fade out when I conquer

We can walk up in the house, everybody passed out, old mantra

You can take the first kill, fuck, man, cut 'em up, go bonkers

(- Nah, I can't do all that, man) - What? I go first then

Don't nobody give a fuck about me, they won't come and get it when the hears e spin

I done played it, kinda rough that everybody hit me back when I done put the

work in
They all tell me that's no way to get down, I'm hellbound for certain
