

Hell And Back

Twisted Insane

I'm right back with the Voodoo
Dominate 'em with the [?] every time I leave 'em with the redrum
Baron Samedi, I meet 'em they will not be seekin' if I mean to
greet 'em in the window
When I pull up and defeat 'em, they be in the front yard with t
heir head spun
When the lead come, better get to steppin' 'fore you get infect
ed, oh shit
Ain't nobody on my level, I was sittin' with the devil when I w
rote this
I will never leave a dry eye, wonder why my brain's so sick
Now it's time for me to rise up outta hell and put the whole wo
rld on notice
And know this: I'm focused
So I'm try'na feed a nigga young, anybody want, become blown bi
ts
Won't nobody battle me, I met up with my death and said "hold t
his"
Even though it's Halloween, met up with a fiend, hocus-pocus
Trick or treat, I keep it undefeated if you wanna come and get
your throat slit
I'm from Dago where nobody jokin' when they smoke a nigga, that
will mean you roasted
Smoke 'em with or without law, watchin' everybody burn up in th
e black rain
I'm the only one that felt the pain, mental sprain I'm so toast
ed

Deadly with the weapon, hit 'em all up with an icepick
Try'na come a little different, I will [?] be around up in the
kitchen
[?] a harder then a fire lit my victim, ain't nobody come with
shit like this
I'm nitrous, line 'em up and kill 'em all dead
Leave a nigga with a new part, they comin' back with a bald hea
d
Anybody wanna follow me and I be makin' sure that we all fed
With me, go against me, they be six feet when it's all said

Jump in, go on, jump in
Right now?
Jump in, go on, jump in
Alright
Jump in, go on, jump in
Where we goin'?
Jump in, go on, jump in
To hell and back

Jump in, go on, jump in
What?

Jump in, go on, jump in
Triv

Jump in, go on, jump in
Where we goin'?

Jump in, go on, jump in
To hell and back
