

Michael and Freddy and Jason
Stood in the parking lot waitin'
A murder went down in the Days Inn
And that's where them niggas be hangin'
Night time is when they come out chasin'
I heard they all like to get wasted
That night I was in the bar tastin'
When they came in, my heart was racin'

Michael and Freddy and Jason
Michael and Freddy and Jason
Michael and Freddy and Jason
Michael and Freddy and Jason
Michael and Freddy and Jason
Michael and Freddy and Jason

When they fresh off they work and they walkin' home
I'ma wait for that time when they all alone
Get behind 'em at the red light, hit the headlights, then off your dome
They don't want it with the Voodoo, drop doodoos in office thrones
And they don't wanna catch a trick-or-treat on Halloween
Maybe the Rona's on the candy, soak the shit in Listerine
Put it up in the kitchen with the issue that it splits a spleen
Everybody gettin' cut so you gon' have to get the Mr. Clean
I pull up on 'em with the hollow out that car door
I'm about to leave the eyelid, they kinda poppin' like Harpo
Every time I write a new verse I burn 'em up like charcoal
Feelin' big like when I first switched my phone to dark mode
Black cat jinx with the hocus-pocus
Stickin' the voodoo doll and leave 'em bleedin' sick
Be goin' to get the cash, if anyone trippin' we gon' smash shit
Really ain't nothin' changed, get the mask 'fore you leave the whip
Jason take the back and I'ma take the front
If they hit the side, Freddy gonna dump
I be livin' grimy, find me in the swamp
I ain't movin', Michael doin' what he want
I like to smoke a doobie when I'm waitin'
But I don't pass, you know the situation
I wouldn't run 'cause there is no escapin'
Michael and Freddy and Jason

Woke up around midnight, it's time to smash
Never stoppin' at a red light so I'ma mash
You ain't never seein' daylight when I aim right, then I'ma blast
Everybody wonderin' just who the monster is behind the mask
Let 'em get the razorblade, he brought it back
Pull up in the window when he left and got a rack
Cut him up with the Freddy glove, blood, bring the money bag
Line 'em up in my sight, I'm takin' flight off with the Auto Mag
Michael went in back and Jason in the front
Freddy in the kitchen lookin' for the blunt
Got up out, they try'na find a spot to dump
With the movement, Brainsick Muzik what we bump
Try'na maintain for the Brain Gang my heart so
Stick up in a dark place so I cuts 'em up like [?]
Everybody gettin' snapped out when I vamp out like Bardo
Get ready for my call to swipe all like barcodes
Jason take the back and I'ma take the front
If they hit the side, Freddy gonna dump
I be livin' grimy, find me in the swamp
I ain't movin', Michael doin' what he want
