Twisted Insane

Some say I get a little overboard with alcohol  
Takin' 'em to the face, the razor blades for those who doubted all  
Tellin' me who's about to ball  
I couldn't give a fuck, I'm on the bus, wrong neighborhood with the wrong outfit on

I didn't choose this path I'm on... This path chose me  
I'm just walkin' this motherfucker tryin' find out where it lead me to

And I was on that O.E talkin' shit, but I'm really walkin' it  
You was merely wolfin' bout how you was gon' be poppin' shit  
Waited for a minute, but this nigga never did it  
So I got up and I spitted in his face and then I yacked his bitch  
Fucked her in the Escalade, fucked the bitch this yesterday  
Ate the bitch's gush she got the pussy on my breath today  
I be livin' life like, I'm about to die so  
I'm about to pipe every bitch like its death today  
Mayday, Mayday, everybody's dyin'  
Told you bitches from that get that you would end up cryin'  
All your favorite rappers, man they mothafuckin' lyin'  
All you bitches talk about is glitter and your diamonds  
You be in the slow lane, I be on the speed-boat  
But I found a fast bitch, and I hope she deep-throat  
And she got a boyfriend but I bet that he don't  
Know that she be fuckin' suckin' actin' like a cheap ho  
Hoppin' the fences, but when I'm trippin' my heart is the beat  
And I'm lookin' for anyone handed by trigger  
My niggas that live with the bood and livin' their life on the street  
But when nobody could pull up and put one up into me  
Havin' me up in the funeral, people lookin' at me  
And I coughed and saw the motherfuckas bring the heat  
It is the season, give me a reason to put it up  
To another bitter, that kid with the pistol  
And then when I'm up and in front of ya ready to squeeze  
Choppin' and shankin' whenever niggas ready  
Straight irkin' at Freddy like a nigga Freddy  
I'm ready to bust 'em off like hella steady bringin' all you mothafuckas to  
ya knees

Niggas always been up in they feelin's  
I thought you was a pimp  
I'm sick of these niggas that need some healin'  
Because they lost a chick

Slept in the street. Give a fuck 'bout ya ego  
Take her to the bathroom. She told me she could deep-throat  
I know she couldn't take the D, I guarantee that she'll choke  
I be up on some real shit. You be up on buffoonery  
Always up in ya video, just cussin' about ya jewelry  
Niggas steady geffing but they really fuckin' bustin' bout some fuckin foole  
ry  
I cut a body in a section hangin' by utensil it never was cool of me  
I'm always sleepin' every night but ask me if I ever fucked a bitch  
Meet her in a different neighborhood up in the ho, she really on some other  
shit  
Fuck her in so many different ways, skeeted on her face  
Had the ho screamin' my name, squirtin' all over this motherfucker  
But I ain't the bitch's government  
Niggas actin' like they really want to run up on a nigga for a bitch, shit  
I'mma hit a nigga so hard, that's low heart trip, let me sick  
That's the type of shit that make a nigga  
Wanna hit the club in front of honey who, bitch?  
Who gotta nigga at the house but really give a fuck  
She holdin' on a new dick. I'm just sayin'  
Fuck a lovey dovey, I be in it for the pussy
