Ruins

Twisted Insane

(I won't let it take me down)
Everday I walk in ruins
Everywhere I look, there's ruins
Plenty got me goin through it
But I won't let it take me down
It won't take me down, down, down - ruins
It won't take me down, down, down - ruins
It won't take me down, down, down
Everywhere I look, there's ruins
Ru-ru-ru-ruins

Look... I could ruin these niggas
Call up all the homies and put two in these niggas
Everybody hear what I conduct and get to duckin, started fuckin with the Bra
in and caught a flu on these niggas
See me lookin for the army you would need with ya
Cause ya'll don't really wanna see the Brainiac invasion
Dig em big enough to fit a few in each ditch, but
I don't got the time to catch a body - I'm savin'
All the energy I got to get out the emergency
Room, fuck a tomb, no I can't afford a surgery
And I don't give a fuck about your hate for me or what you do cause every si
ngle day I got my body try'na murder me
Why the fuck you think I'm in the gym on the daily?
Only way to fight it when I feel that pain
Fuck a pill when I feel like I can peel back frame
Bent steel, if I stop it, it would kill my brain - I'm ruined
I am what you niggas walk through a slum
I am what you run from on the real
I could be ya paradise, still I'm feelin like I'm in a vice and I'm in Hell
like I'm the one that I killed
So fuck you, pay me
I'm a go hard 'til the cards get dealt and they drop that box
Cause can't nobody stop me, but me
I'm goin 'til my mark get felt, and I'm with Pac, can't stop when

(I won't let it take me down)
Everday I walk in ruins
Everywhere I look, there's ruins
Plenty got me goin through it
But I won't let it take me down
It won't take me down, down, down - ruins
It won't take me down, down, down - ruins
It won't take me down, down, down
Everywhere I look, there's ruins
Ru-ru-ru-ruins

I don't know you muthafuckas - pissed
I was born to never make it since I made it out the womb
Homie, ain't nobody even gave me shit - don't play a victim
I ain't never had no kinda feedin' from a silver spoon
When I'm out to hit the room, bet you wish you wasn't livin'
Man, I wish wasn't kiddin', but the situation real
Leavin' the bitch's pussy killed, blood, I'm ill
Stumble across the parking lot - I'd rather hit the one on one than pull the
 steel, no chill
Pop off in the middle when you wanna pull it

And ya bitch up in a nigga face like, "Twisted, don't do it!"
These niggas be up in my phone everyday with that bullshit 'bout the gunplay
What the fuck you mean "Cool it"?
Shoot... we don't play around like that where I come from
We be at yo' window with the Tommy gun
People'll be like, "Holy fuck, run, it's a gun! ", but before you know it, I
'll be at yo' do', C. Ray, I got me one
I be in the bushes when I'm stalkin'
Patient with my every move, I sit up in a park and then you're droppin' when
 I get to poppin' - Orville Redenbacher
Choppin' everybody, and they momma lit up like a rocket
Stop
I ain't with the bullshit - what you wanna get the homie
Ball banks tell me murder with the pen
So I'm a keep on pushin' wicked shit onto you niggas, 'til you bitches get t
o ditches, kinda hard to not sin when...

(I won't let it take me down)
Everday I walk in ruins
Everywhere I look, there's ruins
Plenty got me goin through it
But I won't let it take me down
It won't take me down, down, down - ruins
It won't take me down, down, down - ruins
It won't take me down, down, down
Everywhere I look, there's ruins
Ru-ru-ru-ruins
