

Venom 3

Twisted Insane

I got you all in my dense smoke
Ain't nothin' funny, I got no money, I been broke
Wouldn't I send you all to the Reaper
Follow and I will reach you, I easily will defeat you
It's nothin' for me to beat you and then the Brain I will feed you
Body for body droppin', I'm glad to finally meet you
Death is comin' to greet you, I put you on a buffet, nigga
First you was bumpin' lips with the wolfin' inside
Then let's get to whoopin', I send you out to the gravedigger
Cut 'em all up and then pull up on 'em with the razor
Blade when I'm on a rampage, I'll burn 'em up, Fantasia
Everybody and they mama know that drama go with danger
You can say I'm gettin' no sleep but you won't be Joe Frazier
No greater, hoppin' out with the all green Chuck Taylors
Every time when it was lunchtime, got bread with no taters
I made a lil' dawg with the Motorola pager
Ain't nobody [?] will jump out and shave ya
The razor, cut 'em up like Tyson hit
And I be the last boss, I got my M. Bison fit
Knowin' [?] with a mask on like Michael did
I don't want no kinda gunplay, can't run 'way with knife and grips
Run away 'fore they come, hide your wife and kids
Only respect for the Brain
Turn 'em into ashes, I got some shit for they asses
When they wanna come fuck with Insane, I hit 'em with Venom

Yeah, Spider In The Night shit
Death is on the way, don't play when the snakebite get 'em
Ugh, I'ma hit the light switch
If it is my fate, okay, I be right there with 'em
Brain, always with the game
When they get cold I burn 'em in flames
Wanna know my name, bitch? Call me Sick James
You chuggers all play, no games, I hit 'em with Venom

Yeah, they all wanna fight with him
Then they wanna run and hide when the knife gon' wet 'em
They all want an eye for an eye
But I promise it, a muhfucka die when the fire gon' hit 'em
(I hit 'em with venom)
If you muscle down for the ride
Get the fuck up out the whip for the [?] when I will get 'em
Hurry up and run when they slidin'
If you really care for the lives of your wife and children
(I hit 'em with venom)

One deep on the Reaper shit
If they want the warfare, I don't care then, we can get
Run up in the homie backyard, don't act hard, I keep it sick
Cut 'em up, will go against me, use the minced meat to feed the pit
Venom, soon as I hit the block up I let 'em
Came in bumpin' them gums and you leavin' just how I did 'em
Put the hole in your denim, the hell I promised has hit 'em
I told 'em I'm finna end 'em, the hollow dump one up in 'em
By the moonlight, ain't nobody in the rap game fuck with my style
Go ahead, come one come all, they fall when the clip go 'pow'
My shit is lethal, finna feed you these .50 rounds

Fuck around and get the gunplay, I [?] as you hit the ground
Back from the trenches, attack like a henchman
My wrath full of vengeance, I swap into Avenger
Still rock when I'm mentioned the strap when I'm lynchin'
I rap with no sense since I pack with no pinchin'
Bet you hear the redrum in my sentence
Danger, walk in they door and then call an audible
Have you thinkin' the worst like it's October 31st
And you was cursed and [?] admitted for hospital
Who is behind the mask? Who is up in the kitchen
Already cookin' the beef? Make a move and it's over
Poison is in your veins, came in to find a win but you
Only suffer defeat when you reachin' for King Cobra
(Venom)
