

## Winter Jack

Twisted Insane

Racing with, racing with, racing with  
My feet finna show Santa I made my list  
I thought about it real hard 'fore I made this shit  
Everything on this bitch is my favorite  
The manager at the Wendy's gon make me quit  
Even though I never call in no faking shit  
Tell the bitch that I was all in they made me flip  
Ain't no header but the Baconator I hate that shit  
I'd rather be up in the north pole just makin' shit  
Every little kid up in this said "go ape and shit"  
I don't really give a rat's ass, I don't have to like make a grip  
Anything to get me off the corner every night I'm out takin whips  
Tie me up to the bed, I don't make a switch  
Tell me that you wasn't real on that hill I still made a wish  
Then he really woulda came to you, came through, I made the dip  
Then he really woulda came to you, came through, I made the dip
