

## Bouncing Bomb

## Twisted Wheel

Jimmy Lee, chip pan grease  
Set fire to the school canteen  
All the children had to leave  
They missed school for a day  
The teachers still got paid

Ivan the Terrible  
Looks after some animals  
Turkeys and highland cattle  
He sells them for their meat  
He's a farmer on his feet

Sitting on the railway line  
Scaring all the passers by  
Stars and stripes flash in their eyes  
Scared the kids off the bus  
Driver gave no fuss

Lives his life so dangerously  
Goes by the name of American Steve  
Keeps some hammers up his sleeve  
He's a man you'd like to meet

But don't give him no cheek, don't give him no cheek

We wont forget your face, no we wont forget your face  
Sit and watch the world all day  
When you have done one, you'll go like the bouncing  
bomb  
And you'll bounce bounce bounce and you'll free the dam  
When you have to go  
When you're dead and gone  
The bouncing bomb will be remembered

John the landlord takes no slack  
He don't care if you never come back  
Sits down with a black bin bag  
It's full of CDs  
He'll give you one for free

Hazel sits down by the bar  
Drinking beer and Advakat  
Has to sneak out for her tar  
She thinks no one knows she smokes  
Little does she know, little do we know

We wont forget your face, no we wont forget your face  
Sit and watch the world all day  
When you have done one, you'll go like the bouncing  
bomb  
And you'll bounce bounce bounce and you'll free the dam  
When you have to go  
When you're dead and gone  
The bouncing bomb will be remembered

Wendy walks the roads all day  
Lost her house, she lost her way

Scarf, coat and anorak  
She's looking for her man  
She knows she never can

Don't forget about Steve the mean  
Kept his money in a submarine  
He'd been shaking money trees  
He was an entrepreneur  
But no one really cared  
They just sit back and stare
