

## Ride

### Twisted Wheel

Take another trip in a new direction,  
Sinking in your thief in your mutilated flesh.  
Riding to the sound of your favorite record,  
Kissing on the neck in top to the should.  
All day long the people long to be turned on in a passionate way.

I'll ride with you,  
Come on, girl, let me come ride with you.  
Learning all the ways of love with you,  
Doing all the things that we're meant to do.

Endangered by the quick, you want the earth start shaking,  
The feeling hurricane as a new flood spreads.  
Answer in a twilight proof found pleasure  
Rise stats squeezing to new found peeps.  
All day long the people long to be turned on in a passionate way.

I'll ride with you,  
Come on, girl, let me come ride with you.  
Learning all the ways of love with you,  
Doing all the things that we're meant to do.

I'll ride with you,  
Come on, girl, let me come ride with you.  
Learning all the ways of love with you,  
Doing all the things that we're meant to do.

I'll ride with you,  
Come on, girl, let me come ride with you.  
Learning all the ways of love with you,  
Doing all the things that we're meant to do.
