

I just might be crazy  
Big pride dog with rabid tooth, I foam when I spit  
Like I'm sick with rabies  
I was born with a gift, fuckin' bent the world that won't save me  
Rose in the dirt  
Like I rose from the earth, imposing a hurt  
That I question your worth  
More than a T-shirt, more than a fake church  
More than a weak bond  
I'm a level beyond King Kong, I'm a time bomb  
Across the model case like [?]  
No more fake stars for you to rely on  
Talkin' bout letting bygones be bygones  
Wait a minute, give me a second, I'm finna [?]  
Like I'm breaking a record, I give a fuck if you're feeling rejected  
Break it apart if it even connected  
I wanna [?] all ya'll feeling [?]

(Call me anomaly) And you ain't the oddity  
It's like I'm living up on another planet, no apologies  
Ooh ooh  
Ooh yeah  
(Call me anomaly) And you ain't the oddity  
It's like I'm living up on another planet, no apologies  
Never apologize for being yourself  
And you were playing the hand you were dealt  
(Call me anomaly) And you ain't the oddity  
It's like I'm living up on another planet, no apologies  
Ooh ooh  
Ooh yeah  
(Call me anomaly) And you ain't the oddity  
It's like I'm living up on another planet, no apologies  
Never apologize for being yourself  
And you were playing the hand you were dealt

Don't fuck with that, I'm sick in the brain, not a man, off the chain

Your human state I gotta wipe from existence  
Got to hand it to you for piece of shit? You've got persistence  
You're fucking with the, dead fully loaded with the lead  
12 gauge sawed off, and I'm seeing red  
You gonna get it in the worst way, it's just revenge, I'm thirsty  
Fuck you up so bad your fams trying to curse me

(Call me anomaly) And you ain't the oddity  
It's like I'm living up on another planet, no apologies  
Ooh ooh  
Ooh yeah  
(Call me anomaly) And you ain't the oddity  
It's like I'm living up on another planet, no apologies  
Never apologize for being yourself  
And you were playing the hand you were dealt  
(Call me anomaly) And you ain't the oddity  
It's like I'm living up on another planet, no apologies  
Ooh ooh  
Ooh yeah  
(Call me anomaly) And you ain't the oddity

It's like I'm living up on another planet, no apologies  
Never apologize for being yourself  
And you were playing the hand you were dealt

I've been counted out like a register  
By all kinds on the regular  
But I bounce back like a wrestler  
When they hit the ropes  
Come flyin' back, hit you with that okeydoke  
Sometimes I feel like the only hope is broke  
Like the whole world is comatose from an overdose  
We the only ones woke (Woke)  
Fuck it, I've had enough  
You got a problem, better add 'em up  
And everybody can finally all agree that the answer is us  
And go slander us, 'cause we don't pander for the cameras  
And I'm past the nut on the fast track  
My stamina can out last that  
We're the first place they run to  
When they feel like they've been back stabbed

(Call me anomaly) And you ain't the oddity  
It's like I'm living up on another planet, no apologies  
Ooh ooh  
Ooh yeah  
(Call me anomaly) And you ain't the oddity  
It's like I'm living up on another planet, no apologies  
Never apologize for being yourself  
And you were playing the hand you were dealt  
(Call me anomaly) And you ain't the oddity  
It's like I'm living up on another planet, no apologies  
Ooh ooh  
Ooh yeah  
(Call me anomaly) And you ain't the oddity  
It's like I'm living up on another planet, no apologies  
Never apologize for being yourself  
And you were playing the hand you were dealt
