

# BAD DECISIONS

Twiztid

Pick it up now

So go an tell me what's the object  
Cause what they really be wantin is so complex  
And I'm sick an tired of the process  
I just do it for the liquor and some rough sex  
And now they sayin I'm a bad guy  
With some bad ties  
I don't even ask why  
Tell they ass bye  
Look me in my damn eyes  
Fuck it I'm high  
I will never deny  
This is my life

This is how I will live  
Nothing that I will give  
Will help you benefit  
Just tell them deal with it

Don't care about bad decisions  
Not here for recognition  
I know It's hard to swallow  
All of these problems  
That I'm probably causing now

Probably shouldn't listen to my dark intuition  
And that's the way that I'm livin' juggling bad decisions  
So fuck the options I'm giving it's like the pieces ain't fittin'  
I'm heading for an early grave, I'm alive and kickin'  
With so much bad luck

You gave the power to a devil now your stuck in his flames  
An he just puts you on the shelf if you ain't playin his game  
You were supposed to be the next big thing as they say  
But now your nothin but another bad decision today

This is how I will live  
Nothing that I will give  
Is beneficial shit  
Just tell them deal with it

Don't care about bad decisions  
Not here for recognition  
I know It's hard to swallow  
All of these problems  
That I'm probably causing now

Oh you want some good advice?  
When they push you make them all fight

Get the fuck up  
Get the fuck up  
Get the fuck up  
Make them all fight

Don't care about bad decisions

Not here for recognition  
I know It's hard to swallow  
All of these problems  
That I'm probably causing now
