

Comes with an Apology

Twiztid

Suns coming up over the hillside
Look like it's gonna be a
Bright day to shine
Whoa

None of your storm clouds
Stand a chance to hold me down
No more
I'm trying to deal with life before
I'm gone

You know there's no wrong way
To love me don't you
I told you once before
Practice makes perfect
But perfect does not exist
In the person that you are looking for
You know there's no wrong way to do something
That you've never done before
But my advice is don't apologize
If you're trying to cut me to the core

For the times I hope
That I keep forgiving myself
For letting you do these things to me
Now I see that your love comes with apologies

And the things you say
Are water under the bridge
That I'm drowning in
How can this be
That this love of ours
Comes with an apology

Listen to me I'm over these
Dumb apologies
Bite my tongue
One minute love
And then we're enemies
Oh I don't understand how it
Gets to this degree
Feels more like you're not here
And lately is hard to see
Why I forgive myself
I try to be better
Better like I'm somebody else
Shouldn't be that wrong

For the times I hope
That I keep forgiving myself
For letting you do these things to me
Now I see that your love comes with apologies

And the things you say
Are water under the bridge
That I'm drowning in
How can this be

That this love of ours
Comes with an apology

I'm not perfect
Broken person
You try so hard to fit in
I'm not perfect
Broken person
I try so hard to fit in

For the times I hope
That I keep forgiving myself
For letting you do these things to me
Now I see that your love come with apologies

And the things you say
Are water under the bridge
That I'm drowning in
How can this be
That this love of ours
Comes with an apology
