

# dance on my grave

Twiztid

I been feeling  
Like people constantly steppin  
On everybody profession  
In essence they like a flat line  
They got no reason  
Believing they any better  
Than anyone with a heart  
Compared to someone who has no spine  
I get disgusted  
I trusted so many dumb lies  
Predictable people persist  
To be the victimized  
Callus hearts kill hope and capitalize  
While I remain under they scope  
When they scrutinize

And all these ghosts  
That haunt my brain  
Help the helpless  
Hear the prayers of the ones  
You cannot save

Dance on my grave  
Curse my name  
Take my energy now  
Become what I am  
Endless without a doubt

I wanna find a way to get my mind right  
Feel like I been ridin on this coaster just buckled up for the limelight  
Every day a little bit older heart a little bit colder  
More pressure to shoulder but I'm alright  
Life's a journey and I'm here for the trip  
Don't concern me with the burning desire to cause a rift  
I been learning how to fight with a fire they can't resist  
Now I'm walking through the ashes of those as consequence

And all these ghosts  
That haunt my brain  
Help the helpless  
Hear the prayers of the ones  
You cannot save

Dance on my grave  
Curse my name  
Take my energy now  
Become what I am  
Endless without a doubt

Dance on  
My grave  
Feel this energy  
Take it away  
Dance on  
My grave  
Feel this energy  
Take it away

Dance on  
My grave  
Feel this energy  
Take it away

Dance on my grave  
Curse my name  
Take my energy now  
Become what I am  
Endless without a doubt

And all these ghosts  
That haunt my brain  
Help the helpless  
Hear the prayers of the ones  
You can not save

Dance on my grave  
Curse my name  
Take my energy now  
Become what I am  
Endless without a doubt

Become what I am  
Endless without a doubt
