

# Darkness

Twiztid

How come this wasted time is such a loss expressed on my side?  
I'd give you everything if you just let me stand beside you  
Your kind is so amused and still confused by what you live with

Your darkness just won't go away  
Your light, it's time for you to shine on today  
Nothing but darkness in me

Darkness, night time  
No moon in the sky tonight  
Feeling like our lives been tucked away, today  
Life is darkness, forever remain, and again

How come these things you say they always seem to grow and haun  
t me?  
I'd give you everything if you just let me stand beside you  
You seem to think that I would let things slide and have you ch  
ange me  
This darkness just won't go away  
No light, inside for me to shine on today  
Nothing but darkness in me

Darkness, night time  
No moon in the sky tonight  
Feeling like our lives been tucked away, today  
Life is darkness, forever remain, and again

And again  
No light, inside for me to shine on today  
Nothing but darkness in me

Darkness, night time  
No moon in the sky tonight  
Feeling like our lives been tucked away, today  
Life is darkness, forever remain, and again
