

Dead Instead

Twiztid

I wanna be happy
Like people in pictures
I see on the doctor walls
I wanna feel better
All by myself
Without the help of
Drugs or alcohol
I wanna be social
Kind and friendly
With great subjects to talk about
But when I come in contact
With others I'd rather
Just go and shut my mouth

I build these walls
To keep these things in line
It seems these walls'll
Lock me up in my mind
I build these walls
To help with my head
It seems these walls
Would rather have me dead instead

It's a struggle for me to try to exist inside a bubble
I'll admit I often stumble I'm no diff
Feel the pressure losin' grip
Speak your mind or bite your lip
Either stand or take a sit
From the info that you get
No one knows of its legit

I don't really care anymore
I know it sounds selfish
But what am I helping it for
No one really cares anymore
I know it sounds helpless
I know it sounds helpless

I build these walls
To keep these things in line
It seems these walls'll
Lock me up in my mind
I build these walls
To help with my head
It seems these walls
Would rather have me dead instead
