

Get Through the Day

Twiztid

We against all odds
Stand to face each day
Separating the real I
From I can't believe about me
The things that them say
Them only words

Why is you giving em weight
You should be focused on come up
Ignoring the hate
You should be number one always
And never nine hundred and ninety-eight
In a long line of them trying to be great
Either its real or its fake
Sleeping on us was the first of a million mistakes
No we not trying to replace
We just trying to cut a lane
While people awake
You gone remember the name
You gone remember the face and the paint
Others might be in the game
But none of em do it the same
Hideous Twiztid insidious mental escape
Infecting realities negative state
We gone break it apart
And then blow it away
Let out the madness
And get through the day

Helping me get through the day
Please take away all the pain
My minds broken blown away
(Tell me about it now here we go)
Something take this pain away
I can't take another day
Feel like digging my own grave
(Tell me about it now here we go)
Helping me get through the day
Please take away all the pain
My minds broken blown away
(Tell me about it now here we go)
Something take this pain away
I can't take another day
Feel like digging my own grave
(Tell me about it now here we go)

Who gives a fuck what them say
They couldn't walk in our shoes for a day
Give em a second and they'll all be beggin
For us to forget that they mentioned our name
An I know you feelin the same like
We're sharin a pain or a brain or
There's something that keeps us connected
I'll never forget it like links on a chain
Man they Must be insane
They got it Twiztid just thinkin that they had a seat on our train
I Get So Explicit when I'm in the midst of some haters an I Feel like I wann

a rage
Easy like turnin a page
Jimmy the lock on the cage
Gimmie the mic and stage
We'll be the led in the zeppelin to take all the pain and the problems away
Now let's get through the day

Helping me get through the day
Please take away all the pain
My minds broken blown away
(Tell me about it now here we go)
Something take this pain away
I can't take another day
Feel like digging my own grave
(Tell me about it now here we go)
Helping me get through the day
Please take away all the pain
My minds broken blown away
(Tell me about it now here we go)
Something take this pain away
I can't take another day
Feel like digging my own grave
(Tell me about it now here we go)

My day gets lost in this maze
Up inside my mind
Throw me a line
I need more time
Listen to me
Lock the world down and stay out
Just trying to find me a way out
Find me an escape
From everything that I hate

My day gets lost in this maze
Up inside my mind
Throw me a line
I need more time
Listen to me

My day gets lost in this maze
Up inside my mind
Find me an escape
From everything that I hate
