

## magic spellz

Twiztid

What I feel lately is 50 shades of hate me  
And I can't seem to break free  
I don't like what I'm feelin' maybe  
My self-medicating  
At the point of breaking  
I'm not sure if you're relating  
I just need to feel like I'm the one worth saving

You lift me up in times when I wanna die  
Intoxicated by your magic spellz you weave all the time  
You bring me down every time I feel alive  
I'm trying, I'm living I'm dying this minute

You bring me up and take me down  
Life smacks the face I hold my ground  
Another day to sing this song aloud  
I wonder can they hear me screaming  
Switch it now, change the day and take whatever comes my way I  
gotta say that this magical spell is heaven or hell when it pla  
ys it can lighten or darken up your day push it away

You lift me up in times when I wanna die  
Intoxicated by your magic spellz you weave all the time  
You bring me down every time I feel alive  
I'm trying, I'm living I'm dying this minute

I try to live but they want me to cease to be I'm shedding skin  
cutting teeth and becoming me...

Finger pointed shaming an everybody blaming  
What if I leave escaping  
This I know it'll be here waiting  
Anticipating  
My downfall on the daily  
But you give all that you gave me  
And it saved me and it saved me and it saved me

You lift me up in times when I wanna die  
Intoxicated by your magic spellz you weave all the time  
You bring me down every time I feel alive  
I'm trying, I'm living I'm dying this minute

You lift me up in times when I wanna die  
Intoxicated by your magic spellz you weave all the time  
You bring me down every time I feel alive  
I'm trying, I'm living I'm dying this minute
