Murder Carnage is right  
Any other day of the year is inappropriate  
But this is Halloween night  
Let's bleed the streets red  
Kill them all dead  
Take away their heads  
And make sure the demons are fed

I am the reason you lying awake  
I'm in ya face  
The moment deciding your fate  
Doubt you surviving this rage  
I wash em away  
And you cannot title this wave  
I strike with a blaze  
Come with lightning and rain  
I will frighten your brain  
While you fighting the pain  
And your white will be stained  
With your blood when it drains  
I don't mess with you cats  
We ain't thuggin' the same  
I ain't loving the fame  
I'm a scrub with a name  
Peace to the homies who struggle the same  
Shots are precise better duck when I aim  
Throwing up signs and show love to my gang  
Busting these chains they can't restrain me  
Call Steven Hawking he can't explain me  
Homeland security can't detain me  
If you really getting money than you wouldn't be angry  
That's factual  
Ain't no gimmick  
This is natural  
Live in the flesh  
And that's actually  
How I act a fool  
I take one knee  
Cock back the tool pow!

Jab an ice pick into ya eye  
Why don't you just die  
Getting tired of the pleading  
For your life ain't gonna lie  
Do I gotta slice the tongue off next  
Endure the mumbling  
To get the blood gushing  
Like a volcano rumbling  
Let's see it see the blood blood spray  
AK popping off bullets your way  
Letting off strays  
You know Slugs ain't gotta name  
An they Still gonna leave your face  
Mangled just the same  
Bodies pile up on the sidewalk  
No time for chalk cause I'm  
Cutting off ya limbs with the band saw  
Cauterize the wounds  
Send a ya fingers for ransom  
Snatch the bags kill the mark  
That's the deadman's anthem

Play for blood in this game  
The Shits so deep if you think of  
Walking on my turf  
Better Bring ya cleats  
And Prepare for defeat  
Cause I'll never take an L  
Mean mark heart punch ya
