

# Never Be Nothing

Twiztid

Can you look into a mirror  
Get a clear  
Picture of What  
Surely disappears  
No If an's or but's  
All these people in my ear  
Tellin me to stay down  
Don't get up  
Just lay down oh for what  
You didn't think we could make the cut  
Didn't know that I could take this much  
Can you blame for my hatefulness  
You been doubted by the same as us  
Misplaced in a race that sucks  
Like you they abandoned us  
No trace what a disgrace  
Mislead lookin for a place to lay my head and feel safe  
Change of pace when I'm dead don't waste a single tear do not shed  
Just know I'm leavin here as man who wasn't suppose to be in here  
An I'm glad I finally got to beat the fear that I had  
I don't wanna be here sometimes  
Feel like I'm stuck in the wrong line  
Long time it's been feelin lost why  
Even try to abide to the false lies

It was never my intention  
To be misunderstood  
But if I don't stand for nothing  
That must mean that I'm no good  
I must have given off the wrong meaning  
I'm so confused  
But you never know what it's like to win  
Until you lose  
It was never a game to us  
Wasn't nobody playing at all  
Time is all that seemed to change  
And we're still standing tall  
I remember when they told me  
We would never be nothing

Who am I?  
Not sure of responses  
To formulate answers  
To questions asked  
What is a man  
Is he a hope of a fruitful future  
Or the sum of a barren past  
Through the looking glass  
The perceptions off  
But the image you behold  
Of a broken sort  
Of a puzzle man  
Piece himself together so many times  
Over time he become a few pieces short  
Now he resort to drinking and drugs to vent  
Slowly he descending from 100%  
He becoming more in tune

With the things he against  
While he's steady laying bricks  
In the walls of resent  
Now with all due respect  
How can I unplug or disconnect  
I don't wanna hurt no feelings  
Or stop checks  
I don't wanna give what's mine  
To who's next  
Cause I worked to fucking hard for this  
And I can't go back  
Just forward from here  
Can't take it all away  
Or make it all disappear  
Gunna wear my flaws  
Like my has-been fears  
To a throwback time  
That's far from clear  
Say 20/20 vision come from hindsight  
And the 2nd time around  
Ya better get the shit right  
By the 3rd time around  
It could be quicker than a glance  
Fuck around and might not  
Get another chance

(I'm no good)  
It was never my intention  
To be misunderstood  
(I'm no good)  
But if I don't stand for nothing  
That must mean that I'm no good  
(I'm no good)  
I must have given off the wrong meaning  
I'm so confused  
(I'm no good)  
But you never know what it's like to win  
Until you lose  
(I'm no good)  
It was never a game to us  
Wasn't nobody playing at all  
(I'm no good)  
Time is all that seemed to change  
And we're still standing tall  
(I'm no good)  
I remember when they told me  
We would never be nothing  
We would never be nothing
