

# Off With They Heads

Twiztid

Nothing can hold this  
No remote control control all my focus  
Sight set, mind set, all set, get upset  
Self centered I'm an idiot  
Political totally incorrect  
I'm consistently dodging this disrespect  
On a mission to get it we got next  
Did y'all finish yet?  
We been waiting for it long time coming  
Better bow down to it on the up rise  
Shut the fuck up if you ain't been through it  
You don't know shit  
You the ghost pit hollow hoes no hit  
Hot breath big opinions little dicks all up in the mix  
Trying to tell me something I ain't listening  
We the Generation on that gimme shit  
So when they say gimme ear slap  
Let me get two slaps and a kick off in this  
Muthafuckin bitch now till we finish it  
Living legends never mention  
Unforgotten unimportant muthafuckas like us  
We ain't even cut though the pie crust  
Let em know!

Five thousand miles, six thousand below  
Seven minutes to heaven and eight in the undertow  
We done been down before for three centuries  
To become one of the most iconic entities

Swing down axe chop off with they heads  
Swing down axe chop off with they heads  
Swing down axe chop off with they heads  
Swing down axe chop off with they heads

Pull up with a game when they serve mediocrity 8 ways  
Fuck the chucky cheese puppet game play  
Don't wanna hang with that sucka set no way  
Never change!

I got bad blood running through my veins  
I probably wouldn't trust anything I say  
Any second I could bust into this fit of rage  
Medicine it is a must but I, I just won't take  
Lobotomy is an option, I'm a murderous concoction  
Cock this handle back and just watching my axe attack without caution  
Voices talkin' me into stalkin' anything I see walkin'  
Without caution come up missing like my trails of thought inside of my mind  
There's no hope for you  
On the side of this line we're the chosen few  
Venomous 5 came through with the spoken truth  
The dark side is alive in the vocal booth

Five thousand miles, six thousand below  
Seven minutes to heaven and eight in the undertow  
We done been down before for three centuries  
To become one of the most iconic entities

Swing down axe chop off with they heads  
Swing down axe chop off with they heads
