

Parasite

Twiztid

I let them make me feel
Awful and ashamed
Curse me
Bring me down
Don't even know my name
It makes me feel less of a person
More insane
No it's not me
I know it's them
That needs to change

I'm not
(Not uh)
One of them that thinks you're right
I'm not
Like you
You're just a parasite, yeah
Give em something
To remember you by

I cannot help you if you're just a
'Nother one of them
Watch me fall apart what a picture
Through tainted lens
They say that I'm crazy an I'm starting to think that it's more than a maybe
Feel like I'm losin' my mind more than a little bit lately

I'm not
(Not uh)
One of them that thinks you're right
I'm not
Like you
You're just a parasite, yeah

I'll never give into you
I'll never give into you no

Give em something
To remember you by

I'll never give into you
I'll never give into you no
Don't know me
Don't have a clue
Never be nothing like you no

Never let you under my skin
You don't win in the end of my story
When I'm pushed too far
And the rage takes hold
And no one's ever safe
And it's all I know
And I lose control
And it's all I know
And I lose control
And it's all I know
And I lose control

And it's all I know
(Wrong or right fuck you, you're a parasite)

I'm not
(Not uh)
One of them that thinks you're right
I'm not
Like you
You're just a parasite, yeah

I'll never give into you
I'll never give into you no

Give em something
To remember you by

I'll never give into you
I'll never give into you no
Don't know me
Don't have a clue
Never be nothing like you no
