

Puzzle Pieces Just Didn't Fit

Twiztid

I'm diggin' it, I'm diggin- you know, and again, just- it's, it's
It's like, I feel like when you hear these-
When you hear these, these songs
It's almost like a disservice we're doing to these songs
By just giving them to you
And never letting anybody else feel the effects, man
It's true, but that's kind of
But that is the other angle
That's the glass half empty vibe
Or the glass half full depending on which one you see it
This is the other side where this is just-
It's so very special, it's so intimate, it's just for you
It's not for everybody, it's not-
And for being a part of something so special
You deserve to get something so special
Absolutely, absolutely
And this next song is no different
It's just as special
Everybody's had those days
Where you're like, not today
Not today, not to-god- not- god damnit, not today!
Got a lot on my mind, baby
Gotta sand it off
Got a lot on my mind, baby
It get one more degree hotter in here
I'ma to pop off on somebody
You've all had them type of days
And this next song emulates those feelings
When you're on the edge of your breaking point
And uh , and again
It was another one of those songs that didn't really have the-
The connection to the record
It was, it was, it's its own-
But it was early
These are all early, these are all pre
Pre-
Really pre-
Pre-Gen
Yes, yes
These are all pre-Gen songs
Absolutely, these are-
True
Because Jamie Madrox does not stop
I'm sorry!
He's just, every day at the studio
And however many songs he can get in, he can get in, and then
I try
We'll figure it out
And sometimes they're good, and sometimes they suck
No, they're all good
Well, I thank you for that
But you have to put them in their proper placement
It's true
So they can get their proper love
I like that
And that's where we are- that's why this is so special, man
It's true

Because every one of these songs
We could easily release this as a national release
And make money off of it
Mmhmm
And everybody gets to hear it
But we wanted to do something special
Absolutely
Because you guys are special!
That's awesome, no, and I love it, and it's like, it's, it's, it's the-
He's right, these songs are like, uh
Their own individual puzzle pieces
That didn't fit to the game board that we were building
So, so let them not go unsung
Let them be singing in your ears next
Right
Turn it up and enjoy
