

Separate

Twiztid

Ladies and gentlemen
Regardless of melanin
Or a god that your peddelin
Or yellin you're with the devil
You'll see nothing better than
Twiztid we're medicine
For people who let us in
Now go get a shovel if you can dig what I'm messaging
Can you remember when
Something has ever been
The way that it's spouse be
Well I'm thinkin it's never friend
My back it'll never bend
No adamantium
Just the heart of a champion
Frustrated cuz us made it
So upgraded you fucks hate it enough waited
For what take it and run if you got the nuts
Shakin the rust
Outta the cuts
Open em up
Let me get a look at what ya workin with
This is my purpose I'm servin it
A place to escape when your hurting it
Can make it just stop like a tourniquet
While they leave you to rot or to burn in it
And I don't feel like your deservin it
Ya name well they gotta throw dirt in it
Believe when I say
Haters are permanent
Pay no concern to it
An give all ya love to the people that's earnin it

Happens to me every day
They wonder why I separate
Confusion that leads me astray
They wonder why I separate
From this world that hates us so
They wonder why I separate

Ima take care
Ima take time
Like a chain of thought
That my grandma bought
Like some new stairs
I should take steps
Try to make amends
For the time we fought
Ima hot head
And I see red
Then I fall back then I brush it off
Like a whooping cough in a pandemic
Everybody pissed
Bouta set it off
Ima big risk you should know this
Even running wit me
Make your name cursed

Even though we're made of the same worth
I just started chasing after the fame first
And you're only as good as your last verse
And the world is always against you
And everyone saying they all got your back
And fuck the people that pretend to
Wanna cross me like an "x" or a "t"
Not enough "i's" for you bitches to see
I don't care why it's not important to me
It's apparent that they're not
Supportive of me
And they're held back by distorted beliefs
But smile every time they with me
We both know
That they want me deceased
And that is the shit I can not believe

They wonder why I separate
They wonder why I separate

You know that I don't care
What they think of me
You know that they all
Consider me the enemy
Don't concern yourself
With things you can't change though
Don't be nothing like them
Opposite of hateful

You know that I don't care
What they think of me
You know that they all
Consider me the enemy
Don't concern yourself
With things you can't change though
Don't be nothing like them
Opposite of hateful

That's what
That's what
That's what they all think

They wonder why I separate
