

Sing It

Twiztid

I feel afraid and alone
I'm broken down
Only got this song
And the world hates when I sing it
And the world hates when I sing it
I'm on top it's all good when
I'm on a winning streak
I'm never losing again
And the world hates when I sing it
And the world hates when I sing it

Hey get up stand up weigh up stay up
All upon my wavelength
It's harder then I make it look regardless what they think
You wasting wishes on lost dreams
Still pushing them old schemes
Politicking on a mission never with my team
Gave my life 'bout that cream
Since them days of the triple beam
You ain't gotta tell me shit
'Bout dividends an benefits
Can take you to the brink of existence
In an instance
So all that petty shit you spread on Pinterest
Pay no interest

I feel afraid and alone
I'm broken down
Only got this song
And the world hates when I sing it
And the world hates when I sing it
I'm on top it's all good when
I'm on a winning streak
I'm never losing again
And the world hates when I sing it
And the world hates when I sing it

Yep
Enter the center
Going deep inside of your brain slow
I'm on the sick result of all aggression you let go
It's my fault
I insult and go off
It's like a train wreck
Thousand times
Hundred lines
Reassuring my brains set
Hold it down
Back it up
Jumping up like I'm a damn fool
Hit or miss
Win or loss
Come across just like a hook do
I'm insane
Never right
Wrong as ever
Here we go now

Keeping up with the speed
No intention of us slowing down

I feel afraid and alone
I'm broken down
Only got this song
And the world hates when I sing it
And the world hates when I sing it
I'm on top it's all good when
I'm on a winning streak
I'm never losing again
And the world hates when I sing it
And the world hates when I sing it

I do it for the blood not for the hell of it
And I appreciate all of the love because it's relevant
But when they quick to forget you my mind is like an elephant
All of the hate yeah I will embrace I'm in my element
Malevolent structure build it like a pyramid Luxor
Levitate at the top and my eye watch it rupture
Usher in a new beginning and sing about it
Dirty Heathen King of everything it got a ring about it

I feel afraid and alone
I'm broken down
Only got this song
And the world hates when I sing it
And the world hates when I sing it
I'm on top it's all good when
I'm on a winning streak
I'm never losing again
And the world hates when I sing it
And the world hates when I sing it
