

Slip/Trip

Twiztid

[?] the people and see what they say
Just [?] picture of me with a phrase
Skirt up under the photo saying everybody's going to die by the blade
I've been conflicted before I was made
Stuck in the womb of the craze
Now I just want to walk up to somebody and grab them and stab them right the
re in the face
Fuck all that chase fuck all the case in the place
Fuck making all the mistakes
Rather just sit in your basement and wait for someone to come
And just land on my shank robbing a bank can not relate
Better stick to this shit that I'm great
Sticking and stabbing and jabbing I'm laughing
Cause everyone's going to die by the blade
Murder brocade that's what I made
Bout to go down like the sun and the raise
Bout to go find you and show you that me and my knife can come kill you in s
o many ways
I'm wanna chop, cut, slice, stab, hack, stack them body's on the mat
From the floor up to the ceiling look at that

Slip (slip) slipping I'm slipping in the blood
Trip tripping I'm out my mind like what the fuck
Slip (slip) slipping I'm slipping in the blood
Trip tripping I'm out my mind like what the fuck
Trip I'm out my mind like what the fuck
Trip I'm out my mind like what the fuck

Sleep tonight no I cannot awake spent to much time giving a fuck about what
others think
Comatose in my mind now my eyes don't even blink
Washing blood from my hands gently in the kitchen sink
I put away the dishes I even closed the door
I did not however clean the blood from off of the kitchen floor
They want me luminal it was so crimson red
Right next to the decapitated head Coagulated puddles of blood
Pudding and a smear from the attack where I slipped and lost my supposed foo
ting fell on my back
Got up and grabbed my knife and walk straight through the screen door
Stumbled in the woods and laid down like before (like before)

Slip (slip) slipping I'm slipping in the blood
Trip tripping I'm out my mind like what the fuck
Slip (slip) slipping I'm slipping in the blood
Trip tripping I'm out my mind like what the fuck
Trip I'm out my mind like what the fuck
Trip I'm out my mind like what the fuck
Trip I'm out my mind like what the fuck

Stab splash erratically swinging and thrash
A lot of the blood coming up out the gash
I'mma keep swinging and stabbing the body while turning the torso to mash
Blood blood everywhere all in my eyes and splattered all over the door
Its starting to pool all up over the floor
There's no way a body can bleed anymore

Slip (slip) slipping I'm slipping in the blood

Trip tripping I'm out my mind like what the fuck
Slip (slip) slipping I'm slipping in the blood
Trip tripping I'm out my mind like what the fuck
Trip I'm out my mind like what the fuck
Trip I'm out my mind like what the fuck
