

That's What They Be Telling Me

Twiztid

That's what they be telling me
Yeah that's what they be tellin' me
That's what they be tellin' me

I been on that money talks
Up and down look to the sky
I'm pushin' the envelope
Live a little before you die

That's what they be tellin' me (yeah that's what they be tellin' me)
Yeah that's what they be tellin' me (yeah that's what they be tellin' me)

Know the game before you play
Listen man look to the sky
Make a move you never know
If you'll be great before you die

That's what they be tellin' me (yeah that's what they be tellin' me)
Yeah that's what they be tellin' me (yeah that's what they be tellin' me)

Now if they don't like me then that's ok cause I don't care for them
Hustle is no stranger to the lost and cost of money spent
I been on that sauce and spit that money talk with track stats
Back when we would hustle parking lots with only backpacks
You don't know me like you think you know me cause you bought a tape
I was pushing product when I underage and overweight
I was pushing product when I overage and under payed
I'll be pushing product like Biggie and Pac beyond the grave
You don't know the grade and tryin' to hustle in our DNA
Take this here advice and listen up just like a PSA
Twiztid in this bitch we spit this shit forever any day
Shut your fucking mouth and mind you business homie get payed

I been on that money talks
Up and down look to the sky
I'm pushin' the envelope
Live a little before you die

That's what they be tellin' me (yeah that's what they be tellin' me)
Yeah that's what they be tellin' me (yeah that's what they be tellin' me)

Know the game before you play
Listen man look to the sky
Make a move you never know
If you'll be great before you die

That's what they be tellin' me (yeah that's what they be tellin' me)
Yeah that's what they be tellin' me (yeah that's what they be tellin' me)

Ain't this the shit
How we survived all of it
All of the targeted hits
All of the internet gangstas
Who said they were coming to get us and cut us to bits
All of the rappers who claimed that they hate us
And said they were bombin' on us from the get
They payed a hundred a piece for the meet and greet

Then they came face to face and went limp
I can't forget all the people who call themselves worthy
Of judging everything I did
How do I get to the point where I listen to people
Who really have nothing to give
Nothing but rumors and lies
Behind a computer disguised
I don't know who and the why
Or is there a price to false advertise
The harder they hate the higher we rise
So if your tellin' me you are my enemy
There'll be no levity in my brevity
I got longevity cause of the revelry
My rivalry is so dead to me
Like I'm just battling negative energy
All I keep hearing and seeing in everything
Somebody get me some medicine hope it's a remedy
Or it's a wrap and now everyone's dead to me

I been on that money talks
Up and down look to the sky
I'm pushin' the envelope
Live a little before you die

That's what they be tellin' me (yeah that's what they be tellin' me)
Yeah that's what they be tellin' me (yeah that's what they be tellin' me)

Know the game before you play
Listen man look to the sky
Make a move you never know
If you'll be great before you die

That's what they be tellin' me (yeah that's what they be tellin' me)
Yeah that's what they be tellin' me (yeah that's what they be tellin' me)

I been on that money talks
Up and down look to the sky
I'm pushin' the envelope
Live a little before you die

That's what they be tellin' me (yeah that's what they be tellin' me)
Yeah that's what they be tellin' me (yeah that's what they be tellin' me)

Know the game before you play
Listen man look to the sky
Make a move you never know
If you'll be great before you die

That's what they be tellin' me (yeah that's what they be tellin' me)
Yeah that's what they be tellin' me (yeah that's what they be tellin' me)
