

The Clouds Outside

Twiztid

Society's a menace
If you wonder why I'm always smoking that electric lettuce
They're trying to prevent us
But every time they hear we returning that shit like tennis
Love one you can not come from
Where we come from what we got is a grip from the start point
With five on a ten bag when you twist up
What you get is a headache from one joint
Throw back to the brick weed what we smoke
'Til we get sick weak flow
Little ass in the white house seal it up
With honey everybody in the duse be chocking
Pass that shit around couple times
Everybody [?] them window closed
About to put it in park, press play and turn up
The volume of "Second Hand Smoke"

Get high like the clouds outside zoned out out of your mind
And everything's just fine
Take a rip hold that shit exhaled like a rhythm let's ride
Get high like the clouds outside zoned out out of your mind
And everything's just fine
Take a rip hold that shit exhaled like a rhythm let's ride

My shoulders been holding it for a minute
Now so I push my lungs to the limit
And try to figure out just what this livings about
Feel like I'm living in doubts
Sit ith a joint in my mouth, I just keep talking it out
Staring deeply at the menu at the drive-through
I'm making life's decisions I won't comprise too
My brains spinning like a typhoon
Think about everything at the same time I want to get high so
My anxiety all of the time inside of me
But that's another side of me we can handle honestly
Picture the land that they co-handily
This is who I am no apologies, fuck you to honor please
You took my freedom for a couple G's
And victims still out here smoking some so what a ton to be me
Feeling like I'm finally free
With every hit I sit back you can ride with me

Get high like the clouds outside zoned out out of your mind
And everything's just fine
Take a rip hold that shit exhaled like a rhythm let's ride
Get high like the clouds outside zoned out out of your mind
And everything's just fine
Take a rip hold that shit exhaled like a rhythm let's ride

If you smoke weed like I smoke weed
Then you smoke weed everyday
I smoke loud I'ma blow you a cloud
I'ma blow that shit in your face, everybody said
If you smoke weed like I smoke weed
Then you smoke weed everyday
I smoke loud I'ma blow you a cloud
I'ma blow that shit in your face, everybody said

Get high like the clouds outside zoned out out of your mind
And everything's just fine
Take a rip hold that shit exhaled like a rhythm let's ride
Get high like the clouds outside zoned out out of your mind
And everything's just fine
Take a rip hold that shit exhaled like a rhythm let's ride
