

We All Float

Twiztid

What you smokin on player
Oh never mind don't care
I got the blood shot stare
Unaware that I'm high again but feelin like a leviathan
I used to smoke out up at heilman
We made a bong out of a violin
Used to come up in a bag but now they got the bottles in
An' now we fully throttled like the lotto we just gotta win

Pot snob keep the reggie over there
It's my job to try to keep it out the air
Glob mob that's the homies never share
With the phony's who know we never were friends they don't know me like that
I'll roll a baseball bat
An' take the kinda hit that'll push my hat back
Coughing till I spit up an my lungs collapse
That's the slap you don't wanna get down with that pass it back

We can't smoke the same we just don't
I don't wanna toke with them and I won't
Never go broke again for the choke
Come down here wit us we all float

Come down here with us we all float
Down here we all float
Come down here with us we all float
Down here we all float
Come down here with us we all float

Throwin rhymes like bat-a-rangs 'til they feelin em
Sky high like my balloons got some helium
Float above myself through spirit and ceiling
I'm feeling I'm triple x but living inside a medium
Deal in words and people feeling and repeating em
And I'll be ready wit a doobie whenever the reaper come
Cause everything is way better when you're baked up
Smoke before I sleep and every morning I wake up
Mean it when I speak and thankful for the time I take up
Weather me and Paul are bare faced or in makeup
Drinks over ice and weed on the tray to break up
And we don't need no buzz kill (So keep ya fuckin mouth shut)
Smoke em if ya got em but it gotta be that top shelf
Only blowin outer space save the mids for yourself
Puffin at a fast pace session is in full effect
Smoke up in the air what you expect when we connect

We can't smoke the same we just don't
I don't wanna toke with them and I won't
Never go broke again for the choke
Come down here wit us we all float

Come down here with us we all float
Down here we all float
Come down here with us we all float
Down here we all float
Come down here with us we all float

Growing up I was broke like a bottle
Pockets on E so hollow
Still I got to be so blotto
Now I don't drink but you swallow
When I lead you follow
Bout hit the weed hard nganno
I got the duck bill Donald
On some down here guano
Jamie be the real hermano
Bout to burn it down pronto
Till our chest feels hollow
Let the smoke just wallow
Tell Chappell's holla holla holla

We can't smoke the same we just don't
I don't wanna toké with them and I won't
Never go broke again for the choke
Come down here wit us we all float

Come down here with us we all float
Down here we all float
Come down here with us we all float
Down here we all float
Come down here with us we all float
