

Cigarettes in the Theatre

Two Door Cinema Club

It starts in the theatre
A night of encounters
If I hadn't been there
If not for a cigarette

And you could see it change
Look past the blinding light
Look past the blinding light

Just keep talking on
Tell me your favourite things
Tell me your favourite things

Difference in opinion was never an issue
Collect all your questions
Because this time we've all night

And you could see it change
Look past the blinding light
Look past the blinding light

Just keep talking on
Tell me your favourite things
Tell me your favourite things

And you could see it change
Look past the blinding light
Look past the blinding light

Just keep talking on
Tell me your favourite things
Tell me your favourite things
