

Cities

Two Feet

I can't be falling in love
Falling in love with you, baby
I know it's all that you want
I know it's all you want, bae

But
Long as I'm flying these streets darling
Long as I'm hitting these notes I don't
Care about where I call home

I'm in and out of cities
Miss you and your pretty face
Want your body with me
Tell me, do you miss it, bae

I can tell her that she's all that
Ain't nobody like this girl
And she can fuck me when she want to
I need all of this, girl, I need all of this, girl

In your soul I die
But I can see you lie
There's something in your eyes
I can never sense it

I'm in and out of cities
Miss you and your pretty face
Want your body with me
Tell me, do you miss it, bae
