

Don't Bring Me Down

Two Feet

The darkened skyline
Outside my room
A kingdom that I
Gave up too soon
To be with you
To be with you

I think about that
Most everyday
My life I think it's
It's gonna pass me by
So love me girl
This lonely world
Won't bring me down

The rain is cleaning
The dirty streets
A symptom of life
That's bugging me
Is loving you
Is loving you

I need a doctor
To help me now
I say my symptoms
But then they kick me out
Please love me girl
This lonely world
Won't bring me down
