

# I Want It

Two Feet

I think that I want it  
It's all I really need  
You say that you want it  
Just tell it straight to me  
I think that I want it  
It's all I really need  
You say that you want it  
Just tell it straight to me  
(I think that I want it)  
(You say that you want it)

I think that I want it  
It's all I really need  
You say that you want it  
Just tell it straight to me

I gotta be with you forever, ooh, ooh, ah  
You say we can drink till September, ooh, ooh, ah

I think that I want it  
It's all I really need  
You say that you want it  
Just tell it straight to me

I think that I want it  
It's all I really need  
You say that you want it  
Just tell it straight to me

I think that I want it  
I think that I want it  
I think that I want it
