

You said that you loved her
'Cause that's what
She wanted to hear
But you knew
It wouldn't last for long
Not long enough at all
You said, you said
You're so much brighter
You said, you said
There's so much more
You said, you said
You're so much brighter
Not bright enough at all
I said, I said
I'll stand right by her
You said, you said
There's so much more
I said, I said
I'll stand right by her
You said, you said
There's so much more
Woah Oh, Woah Oh Oh...
He stayed he wanted to go
Wasting but he didn't know
And she knew
It wouldn't last for long
Not long enough at all
You said, you said
You're so much brighter
You said, you said
There's so much more
You're so much brighter
Not bright enough at all
I said, I said
I'll stand right by her
You said, you said
There's so much more
I said, I said
I'll stand right by her
You said, you said
There's so much more
You said that you loved her (You get it on my mind)
'Cause that's what (you get on my mind)
She wanted to hear (you get it on my mind)
But you knew (You said it wasn't right)
It wouldn't last for long (I found it on my mind)
You're so much brighter (You said, you said)
You're so much brighter (You got it on my mind)
You said it wasn't right
You're so much brighter (You got it on my mind)
You said it wasn't right
You're so much brighter (You got it on my mind)
So much brighter
