

Graduated

Two Friends

All your friends left, why you still here alone?
Is there anybody that's taking you home?
While they move they bodies you movin' my soul
Baby you bad as fuck and you don't even know

I could fill up your cup
Roll you one up
But it's not what you love
Not what you love
You play it safe
I misbehave
A shot you won't take
A shot you won't take

She graduated with a 4 point 0
Only out late if her mama knows
Got a fast car but she drive it slow
So she don't want me
She don't want me

She graduated with a 4 point 0
Only out late if her mama knows
Got a fast car but she drive it slow
So she don't want me
She don't want me

Are you sick of the light, wanna play in the shade?
I could show you around if you give me your name
If she wanna go crazy, don't wanna be tamed
Baby let's take a picture we never could frame

I could fill up your cup
Roll you one up
But it's not what you love
Not what you love
You play it safe
I misbehave
A shot you won't take
A shot you won't take
