

No Saving Us

Two Friends

Places and faces, they all look the same
Not used to the quiet, I'm calling your name
And I'm getting tired of feeling this way
Can I just be honest

I'm better off
Now that we don't talk
I wanted to call
For days and days and days
I gave you all your space
And nothing's changed

I throw my hands up, no this can't be love
Gave all of me but my all ain't enough
Miss what we were, I hate what we've become
Wish I could stay, but there's no saving us
No saving us
There's no saving us
No saving us
There's no saving us
No saving us

Been thinkin less of you, more every day
I think that maybe I might be okay
And it's kinda scary that I almost stayed
I hope that you're happy babe

I'm better off
Now we don't talk
I wanted to call
For days and days and days
I gave you all your space
And nothing's changed

I throw my hands up, no this can't be love
Gave all of me but my all ain't enough
Miss what we were, I hate what we've become
Wish I could stay, but there's no saving us
No saving us
There's no saving us

I'd rather feel the pain than nothing at all, nothing at all
I'd rather feel the pain than nothing at all, nothing at all

I throw my hands up, no this can't be love
Gave all of me but my all ain't enough
Miss what we were, I hate what we've become
Wish I could stay, but there's no saving us
No saving us
No saving us
