

Overdose

Two Friends

I spent days on you, willingly wasting them all to
Watch paint fade in your room
You spend me, spend me oh

Tell me what you wanna, tell me what you want
And I'll take you there, I'll take you there
Tell me what you wanna, tell me what you want
And I'll take you there

I want you 'til I overdose
So kiss me to get poisonous
As long as we're faded we'll never be lonely
I want you 'til I overdose

I want you 'til I overdose

I want you 'til I overdose
So kiss me to get poisonous
As long as we're faded we'll never be lonely
I want you 'til I overdose

Every night on you, willingly wasted 'cause I knew
That your lies would never come true
You spend me, you spend me oh

Tell me what you wanna, tell me what you want
And I'll take you there, I'll take you there
Tell me what you wanna, tell me what you want
And I'll take you there

I want you 'til I overdose
So kiss me to get poisonous
As long as we're faded we'll never be lonely
I want you 'til I overdose

I want you 'til I overdose

I want you 'til I overdose
So kiss me to get poisonous
As long as we're faded we'll never be lonely
I want you 'til I overdose
