

# Take It Off

## Two Friends

Flashing lights, big ol' city  
You never looked so pretty  
Like you do, like you do in this hotel room  
Tied up hair, in my underwear  
With your T-shirt on and my make-up gone  
I wanna stay with you in this hotel room

You put on a vintage shirt of a band you never heard  
Ripped black jeans you paid extra for  
But if you ask me what I like

I wanna see your features  
I wanna see your flaws  
So baby, take it off, baby, take it off (Take it, take it off)  
I can dive a little deeper  
When you got nothing on  
So baby, take it off, baby, take it off  
And turn me on  
And turn me on

Sleepless nights, big ol' city  
Missed calls, we've both been busy  
But when the clock hits eight you're at my place  
You show up and you're showing off  
Suit and tie I wanna take off  
'Cause I just gotta see the real you with me

You take a movie out, but I put it away  
Got other things that I'd like on display  
If we only got one night

I wanna see your features  
I wanna see your flaws  
So baby, take it off (Take it off), baby, take it off (Take it off)  
I can dive a little deeper (Deeper)  
When you got nothing on  
So baby, take it off (Take it off), baby, take it off (Take it off)  
And turn me on  
And turn me on

I kinda like you better when you take it off, take it off  
I can see you better when you're in the dark and your clothes are gone  
I kinda like you better when you take it off, take it off  
I can see you better, better (Oh, oh yeah)

I wanna see your features  
I wanna see your flaws  
So baby, take it off (Take it off), baby, take it off (Take it off)  
I can dive a little deeper  
When you got nothing on  
So baby, take it off (Take it off), baby, take it off (Take it off)  
And turn me on

So baby, take it off  
And babe, oh, take it off
