

While We're Dreaming

Two Friends

Yeah, lead you home through the city lights
We were rebels on rooftops on mom's apartment
Held you close 'cause you're scared of heights
But I couldn't keep our young hearts away from falling

Act like we're in love, drinking till we're dumb
Never growing up while we're dreaming
Staring at the sun with fire in our lungs
Dreaming of being young

While we're dreaming
While we're dreaming
While we're dreaming

Now we're caught up in city life
Stuck in traffic on streets we scraped our knees on
I heard that rooftop's unoccupied
And it's ours until dawn, so for tonight let's

Act like we're in love, drinking till we're dumb
Never growing up while we're dreaming
Staring at the sun with fire in our lungs
Dreaming of being young

While we're dreaming
While we're dreaming
While we're dreaming
While we're dreaming
While we're dreaming

Lead you home through the city lights
We were rebels on rooftops on mom's apartment
Held you close 'cause you're scared of heights
But I couldn't keep our young hearts away from falling

While we're dreaming
While we're dreaming
While we're dreaming
While we're dreaming

While we're dreaming
While we're dreaming
While we're dreaming
While we're dreaming
