

With My Homies

Two Friends

I know I'm different
I get a text but nah I'm not with it
About the best party this city has ever seen
But I'm not trippin', no
Heard every adjective in existence
In their foolish Facebook descriptions
But they ain't foolin' me
Still it's a Friday night
I'm feeling something
Hit up the crew but they already comin'
And if we all ain't even doin' nothin'
Better than doing something with nobodies

Still it's a Friday night
I'm feeling something
Hit up the crew but they already comin'
And if we all ain't even doin' nothin'
Better than doing something with nobodies

Crazy party with fake friends and vodka
And girls they don't talk to
They do their thing but I'll be with my homies
No clubbing and models
Just a house and a bottle
Call me crazy but I'll be with my homies
I'll be with my homies

"Last night was so crazy"
That's what I always hear from them lately
But you probably paid that dude 80
Just to get in
And I bet you hate me
Didn't have to smile just to say "say cheese"
I don't gotta buy a drink for these ladies
That don't know my name

Still it's a Friday night
I'm feeling something
Hit up the crew but they already comin'
And if we all ain't even doin' nothin'
Better than doing something with nobodies

Crazy party with fake friends and vodka
And girls they don't talk to
They do their thing but I'll be with my homies
No clubbing and models
Just a house and a bottle
Call me crazy but I'll be with my homies
I'll be with my homies

Crazy party with fake friends and vodka
And drugs from their doctor
They do their thing but I'll be with my homies
No clubbing and models
Just a fifth and a hot tub
Call me crazy but I'll be with my homies
I'll be with my homies

Crazy party with fake friends and vodka
And girls they don't talk to
They do their thing but I'll be with my homies
No clubbing and models
Just a house and a bottle
Call me crazy but I'll be with my homies
