

# Again And Again

TWRP

Baby  
Look what you have done to me  
I am broken  
Broken and unwanted  
You broke my hard drive  
Baby  
All I can process is you  
You have infected my memory  
I cannot find the root of the problem  
Error  
Error  
Error  
Again and again  
I cannot  
I cannot process anything but you  
And now my drive is floppy  
Unwanted, unused, discarded  
E-waste  
Broken-hearted  
I love you
