TWRP

That girl like

Which side will you be?

1, 2, 3, 4 disco board

Their groove was strong

And their determination unwavering

They had already enlightened many

Yet earth still seemed filled with insurmountable greed, hatred and corruption

Musing as he gazed out from their groove station

At this beautiful, but tragic planet

I saw the pylon-man prepare to broadcast a message

To the odd lookers

As the fate glow that was the promise of the moon began to appear

Upon the horizon

The wind carried the voice of the darkness

Through the canyons, rivers and trees

[?] told that the [?] prophecy

But also where our salvation lies

Mark this day, those who dare to dance

For you shall be the ones who survive

The discocalypse

Ha-ha-ha-ha-ha, ha-ha, ha-ha

Ha-ha-ha-ha-ha, ha-ha, ha-ha
